

To whom it may concern

I would like to put on record that I have had several dealings with Touchstone Lighting and I am beyond impressed. As a project manager and construction contractor I have to work with several subcontractors and suppliers for every project, I have been dealing with Walter at Touchstone and have found his service and dedication to be unbelievable! No matter what size order or project he is always up to the task and makes sure that everything is completed timeously, often times he will even come to site to make deliveries himself and make sure that all the stock is correct. His communication is very clear and will always get back me on any queries or requests I have within an hour. You can see that there is a genuine care for everything his does and it's simply a pleasure to work with him, especially in an industry where it is so hard to find good people and good suppliers. I can also add that all the products I have purchased from Touchstone have been of the highest quality, they also have a massive range to choose from and can pretty much sort out anything you need. Thank you Walter and Touchstone.

I am happy for anyone to contact me to discuss further.
